

ENVIRONMENTAL SOCIAL GOVERNANCE ROADMAP

2023-2025

 dandara

The ESG Roadmap sets out the timeline, key targets and KPIs that form the basis of Dandara's Sustainability Strategy for 2023 - 2025 and beyond.

The Roadmap was developed following a Materiality Assessment, identifying key items important to our business. Each material issue has targets and multiple actions attributed to it, to support the achievement of these targets within a given time frame. The material issues are allocated by general theme to either Environmental, Social or Governance and will be updated in line with the Sustainability Strategy towards the latter part of 2025.

ESG ROADMAP (2022 - 2025)

Environmental

Social

Governance

Governance & Social

2022

Materiality Assessment
Develop Sustainability Strategy

2023

Develop Sustainability Strategy
Implement Sustainability Strategy requirements

2024

Implement Sustainability Strategy

2025

Implement Sustainability Strategy requirements
Revise Strategy & update Roadmap by year end

2030

2026 - 2030: New Sustainability
Strategy & revised Roadmap

2050

<p>Responsible Supply Chain Management: Sustainable Procurement Policy developed.</p>	<p>Responsible Supply Chain Management: Commit to the Prompt Payment Code</p>	<p>Responsible Supply Chain Management: Sustainable Procurement Policy developed.</p>	<p>Sustainable Training / Awareness Raising: Partner with the supply chain to investigate opportunities for construction apprenticeship programme</p>	<p>Sustainable Training / Awareness Raising: Develop and implement a sustainability training programme based on a sustainability skills gap assessment</p>	<p>Education & Skills: Developing a target to ensure a % of direct employees are trainees by 2025 Define clear pathways for different apprentices, trainees across Target X% of supply chain employees to be trainees by 2025</p>	<p>Energy & Carbon: Develop a NZC Strategy to achieve NZC by 2050 or sooner</p>	<p>Energy & Carbon: Develop a NZC Strategy to achieve NZC by 2050 or sooner</p>
